

Night Sky Mobile Planetarium

\$10/person Ages 12 & up (under 12 w/paying adult)

7:00 - 9:00 pm Min/15 each session

Session I Tues, March 30th (register by Tues, March 23rd) Session II

Tues, April 13th (register by Tues, April 6th)

Session III Thurs, May 27th (register by Friday, May 21st)

25' Full Dome State of the Art Theater

This one-night, two hour class teaches anybody some basic astronomy concepts and shows how to find a few prominent seasonal constellations, currently visible planets and how to observe transient sky events like meteor showers, eclipses and more. Held in a spacious, high-tech, digital mobile planetarium that provides a realistic simulation of the sky, no equipment or experience is necessary in this conversational session. Seating is on the floor so please dress comfortably. You are invited to bring small chairs or mats for comfort.
